The internationalization of emerging economies has brought new perspectives to international business development. Focusing on the extensive impact these emerging economies and firms have had, this volume covers the strong players, their attention away from focusing exclusively on their domestic market to the global market. Under the current multilateral trading system, most business entities have turned their attention away from focusing exclusively on their domestic market to the global market. Under the current multilateral trading system, most business entities have turned their attention away from focusing exclusively on their domestic market to the global market. From Neighborhoods to Nations: The Economics of Social Interactions
Yannis M. Ioannides
Princeton University Press
ISBN: 9780691126852
Data wydania: 16.11.2012
Oprawa: twarda
Cena: 44,95  GBP

Just as we learn from, influence, and are influenced by others, our social interactions drive economic growth in cities, regions, and nations - determining where households live, how children learn, and what cities and firms produce.

The Behavioral Foundations of Public Policy
Eldar Shafir
Princeton University Press
ISBN: 9780691137568
Oprawa: twarda
Cena: 37,95  GBP

In recent years, remarkable progress has been made in behavioral research on a wide variety of topics, from behavioral finance, labor contracts, philanthropy, and the analysis of savings and poverty, to eyewitness identification and sentencing decisions, racism, sexism, health behaviors, and voting.

A Handbook of Economic Anthropology
James G. Carrier
Edward Elgar Publishing
ISBN: 9781448680283
Data wydania: 01.05.2012
Oprawa: twarda
Cena: 175  GBP

The first edition of this unique Handbook was praised for its substantial and invaluable summary discussions of work by anthropologists on economic processes and issues, on the relationship between economic and non-economic areas of life and on the conceptual orientations that are important among economic anthropologists. This thoroughly revised edition brings those discussions up to date, and includes an important new section exploring ways that leading anthropologists have approached the current economic crisis.

Taxes in America: What Everyone Needs to Know
Leonard E. Burman
Oxford University Press
ISBN: 9780199890279
Data wydania: 29.11.2012
Oprawa: twarda
Cena: 45  GBP

Despite their passion and fury, contemporary Americans are remarkably clueless about how their tax system works. But with heated debates over taxation now roiling Congress and the nation, an understanding of our tax system is of vital importance. Taxes in America, by preeminent tax scholars Leonard E. Burman and Joel Slemrod, offers a clear, concise explanation of how our tax system.

Money in Economic Theory
Hasse Ekedsted
Taylor & Francis
ISBN: 9780415697392
Data wydania: 21.11.2012
Oprawa: twarda
Cena: 80  GBP

The financial crash of 2008 showed the fragility of the financial system. A key question which surfaced in the aftermath of the global crisis was why economists were unable to predict this crash. This new volume argues that this failure can be attributed, at least in part, to the poor and inconsistent treatment of money and monetary matters in economic theory. doing so, the book offers a new approach both to money and to its role in economic theory.

Monetary Reform in Theory and Practice
Paul Einzig
Taylor & Francis
ISBN: 9780415819367
Data wydania: 05.12.2012
Oprawa: twarda
Cena: 80  GBP

First published in 1936, this book gives the reader an insight into the tendencies and spirit of the monetary reform movement as a whole, as accomplished or proposed since the First World War. The author marks the consideration of the overall reform as being more important than specifically looking at the actual proposals and measures involved, and the views he attributes to the various.

The Theory of Economic Policy in a Strategic Context
Nicola Acocella
Cambridge University Press
ISBN: 9781107023864
Data wydania: 01.11.2012
Oprawa: twarda
Cena: 65  GBP

In developing a new and highly innovative theory of economic policy, this book deals with conflicts between strategic actions by public and private agents. It builds on the Lucas critique but also applies the tools introduced by Tinbergen and Theil to dynamic policy games and from there derives a new theory of economic policy. Its main propositions describe such properties in the models currently used for policy-making as neutrality and equilibrium existence.
Aging and Economic Growth in the Pacific Region
Akira Kohsaka
Taylor & Francis
ISBN: 9780415524223
Data wydania: 05.12.2012
Cena: 95 GBP

The Pacific region is in the final stage of the demographic transition with declining fertility and expanding life expectancy, where significant changes in population size and age distribution, i.e. “aging” have been and will be witnessed. They are unprecedented and going to affect economic growth in various ways.

Better Capitalism: Renewing the Entrepreneurial Strength
Robert E. Litan
Yale University Press
ISBN: 9780300146783
Cena: 25 GBP

In the wake of the Great Recession and America’s listless recovery from it, economists, policymakers, and media pundits have argued at length about what has gone wrong with the American capitalist system. Even so, few constructive remedies have emerged.

China: Development and Governance
Gungwu Wang
World Scientific Publishing
ISBN: 9789814425834
Cena: 65 GBP

China has achieved significant internal socioeconomic progress and has become a key player on the international stage after several decades of open-door and reform policy. Looking beyond China’s transformation, this book focuses on the theme of governance which is widely regarded as the next most critical element to ensure that China’s growth remains sustainable.

Economic Development Through Regional Trade
Kato Kimbugwe
Palgrave MacMillan
ISBN: 9780230314214
Data wydania: 14.02.2012
Cena: 65 GBP

Regional trade agreements proliferated in Africa in the wake of independence from colonial rule. For the most part these agreements failed to deliver the regional integration and economic benefits that were promised, and amounted to little more than a propaganda coup for the leaders that signed them.

In the Grip of Transition
Tilmann Bruk
Palgrave MacMillan
ISBN: 9780230303102
Data wydania: 01.02.2012
Cena: 165 GBP

The shift from a centrally planned to a market-based economy involves, amongst other elements, the restructuring of state-owned or privatized enterprises. Realigning product lines, adopting new technology and imposing sound finances are all important stages in the integration of enterprises into world markets.
recognizing sources of regional competitiveness is of paramount importance. This

recognizing sources of regional competitiveness is of paramount importance. This
timely and informative book identifies and analyses changes in the origins of
regional advantage.
Macroeconomics: A European Text
Michael Burda
Oxford University Press
ISBN: 9780198603865
Data wydania: 29.11.2012
Oprawa: miękka
Cena: 46,99 GBP

Macroeconomics provides a comprehensive analysis of contemporary macroeconomics. It analyses different theoretical approaches and contextualises theory with up-to-date monetary policy examples. These fully reflect the fall out from the global financial crisis.

Construction Economics: A New Approach
Danny Myers
Taylor & Francis
ISBN: 9780415527781
Data wydania: 05.12.2012
Oprawa: twarda
Cena: 95 GBP

Construction Economics provides students with the principles and concepts underly the relationship between economic theory and the construction industry. The New Approach adopts an argument that economics is central to business applications.

Economic Reform in India: Challenges, Prospects, and Lessons
Nicholas Hope
Cambridge University Press
ISBN: 9781107020047
Oprawa: twarda
Cena: 70 GBP

The essays in this volume are written by leading economists working on the Indian economy. They collectively emphasize the importance of policies and institutions for sustained growth and poverty reduction, stressing that the success of sector-specific policies is vitally dependent on the nature of markets and the functioning of institutions such as those charged with regulating.

Economic Morality and Jewish Law
Aaron Levine
Oxford University Press
ISBN: 9780198269865
Data wydania: 01.08.2012
Oprawa: twarda
Cena: 40 GBP

Economic Morality and Jewish Law compares the way in which welfare economics and Jewish law determine the propriety of an economic action, whether by a private citizen or the government.

Collected Papers on Monetary Theory
Robert E. Lucas
Harvard University Press
ISBN: 9780674066878
Oprawa: twarda
Cena: 48,95 GBP

Robert Lucas is one of the outstanding monetary theorists of the past hundred years. Along with Knut Wicksell, Irving Fisher, John Maynard Keynes, James Tobin, and Milton Friedman (his teacher), Lucas revolutionized our understanding of how money interacts with the real economy of production, consumption, and exchange. Lucas’s contributions are both methodological and substantive.

Case-Based Predictions
Itzhak Gilboa
World Scientific Publishing
ISBN: 9789814366175
Data wydania: 14.06.2012
Oprawa: twarda
Cena: 84 GBP

This book presents an axiomatic approach to the problems of prediction, classification, and statistical learning. Using methodologies from axiomatic decision theory, and, in particular, the authors’ case-based decision theory, the present studies attempt to ask what inductive conclusions can be derived from existing databases.

Economic Policy
Georges De Menil
John Wiley & Sons
ISBN: 9781444350999
Data wydania: 09.11.2012
Oprawa: miękka
Cena: 25 GBP

Top economists provide a concise and accessible evaluation of major developments in trade and trade policy. Economic Policy has earned a reputation around the world as the one publication that always identifies current and emerging policy topics early. Papers are specially commissioned from first-class economists and experts in the policy field.

Econometrics of Short and Unreliable Time Series
Thomas Uri
Springer
ISBN: 9783642997846
Data wydania: 31.07.2012
Oprawa: twarda
Cena: 72 GBP

The disappearance of central planned economies left politicians, researchers, consultants, and academics with an interest in economies in transition in vagueness about the actual state of the economy and its short and medium term prospects. This volume provides the reader with information on how to deal with the statistical shortcomings of economies in transition.

From Pleasure Machines to Moral Communities
Geoffrey M. Hodgson
The University of Chicago Press
ISBN: 9780226922713
Data wydania: 16.11.2012
Oprawa: twarda
Cena: 29 GBP

Are humans at their core seekers of their own pleasure or cooperative members of society? Paradoxically, they are both. Pleasure seeking can take place only within the context of what works within a defined community, and central to any community are the evolved codes and principles guiding appropriate behavior or morality.

Organization Theory and Its Applications
Susheng Wang
Taylor & Francis
ISBN: 9780415690393
Oprawa: twarda
Cena: 100 GBP

Organization theory is a fast-developing field of microeconomics. Organizational approaches are now used in a wide range of topics in business studies. They are based on information economics, contract theory, and mechanism design. This book introduces such organizational approaches and how to adopt them as business applications.
Population Growth, Income Distribution, and Economic Development
Nico Heerink
Springer
ISBN: 9783642785733
Data wydania: 31.07.2012
Oprawa: twarda
Cena: 72 GBP

In this book, a model of long-term interrelationships between income distribution, population growth and economic development is developed and estimated from data for 54 countries. The results indicate that a reduction of income inequality leads to lower fertility and mortality, to improved basic needs satisfaction, and to lower labour force participation of young and old males and of females in Asia.

The Emergence of Organizations and Markets
John Frederick Padgett
Princeton University Press
ISBN: 9780691148670
Data wydania: 12.11.2012
Oprawa: twarda
Cena: 82,5 GBP

The social sciences have sophisticated models of choice and equilibrium but little understanding of the emergence of novelty. Where do new alternatives, new organizational forms, and new types of people come from? Combining biochemical insights about the origin of life with innovative and historically oriented social network analyses, John Padgett and Walter Powell develop a theory.

The Handbook of Organizational Economics
Robert Gibbons
Princeton University Press
ISBN: 9780691132792
Data wydania: 03.12.2012
Oprawa: twarda
Cena: 69,95 GBP

In even the most market-oriented economies, most economic transactions occur not in markets but inside managed organizations, particularly business firms. Organizational economics seeks to understand the nature and workings of such organizations and their impact on economic performance. This landmark book assembles the leading figures in organizational economics to present the first comprehensive view of both the current state of research in this fast-emerging field and where it might be headed.

The Elgar Companion to Marxist Economics
Ben Fine
Edward Elgar Publishing
ISBN: 9781781001981
Data wydania: 31.01.2013
Oprawa: miękka
Cena: 35 GBP

This Companion takes stock of the trajectory, achievements, shortcomings and prospects of Marxist political economy. It reflects the contributors’ shared commitment to bringing the methods, theories and concepts of Marx himself to bear across a wide range of topics and perspectives, and it provides a testimony to the continuing purpose and vitality of Marxist political economy.

The Great Persuasion: Reinventing Free Markets Since the Depression
Angus Burgin
Harvard University Press
ISBN: 9780674058132
Oprawa: twarda
Cena: 22,95 GBP

Just as today’s observers struggle to justify the workings of the free market in the wake of a global economic crisis, an earlier generation of economists revisited their worldviews following the Great Depression. The Great Persuasion is an intellectual history of that project. Angus Burgin traces the evolution of postwar economic thought in order to reconsider many of the most basic assumptions.

Trams or Tailfins? Public and Private Prosperity in Postwar West Germany
Jan L. Logemann
The University of Chicago Press
ISBN: 9780226491493
Oprawa: twarda
Cena: 29 GBP

In the years that followed World War II, both the United States and the newly formed West German republic had an opportunity to remake their economies. Since then, much has been made of the supposed “Americanization” of European consumer societies - in Germany and elsewhere. Arguing against these foggy notions, Jan L. Logemann takes a comparative look at the development of postwar mass consumption in West Germany and the United States and the emergence of discrete consumer modernities.
Networks like cables and pipelines are essential for a functioning energy market. This book provides a clear and insightful overview of the legal challenges this poses in the modern world.

Managing Natural Catastrophes: Viable Systems to Prevent Human Tragedy
Anja Christina Reissberg
Campus Verlag
ISBN: 9783593396217
Oprawa: miękka
Cena: 45,5 GBP

Natural disasters appear to be on the rise worldwide and their increasing frequency and far-reaching devastation demand the attention of society. But do natural disasters really occur more often than before, or could we merely be seeing the effects of globalization?

The Environmental Economics
Nick Hanley
Oxford University Press
ISBN: 9780199568734
Data wydania: 01.02.2013
Oprawa: twarda
Cena: 41,99 GBP

An understanding of economics is vital to any understanding of why environmental problems occur and what best to do about them. This book provides an introduction to the subject of environmental economics without assuming any in-depth prior knowledge of economics.

Evolutions in Sustainable Investing: Strategies, Funds and Thought
Cary Krosinsky
John Wiley & Sons
ISBN: 9780470889490
Data wydania: 24.01.2012
Oprawa: twarda
Cena: 29,99 GBP

Real-world guidance for investment professionals on delivering attractive risk-adjusted and opportunity-directed returns across asset classes and regions. Filled with interviews with leading practitioners, this book weaves a narrated web around best sustainable investment practices, guiding readers specifically on investing their assets and with specific sustainability trends in mind companies.

Energy Networks and the Law
Lila Barrera-Hernandez
Oxford University Press
ISBN: 9780199645039
Data wydania: 01.02.2012
Oprawa: twarda
Cena: 85 GBP

Networks like cables and pipelines are essential for a functioning energy market. This book provides a clear and insightful overview of the legal challenges this poses in the modern world.

Making Climate Change Work for Us: European Perspectives on Adaptation
Mike Hulme
Cambridge University Press
ISBN: 9781107671386
Data wydania: 27.09.2012
Oprawa: twarda
Cena: 35 GBP

Introducing the main challenges and opportunities of developing local, regional and global strategies for addressing climate change, this book explains the dilemmas faced when converting strategies into policies.

Managing Regional Energy Vulnerabilities in East Asia
Dajatong Zha
Taylor & Francis
ISBN: 9780415535380
Oprawa: twarda
Cena: 80 GBP

This book examines East Asia’s inter-state collaborative energy projects to address energy vulnerability. It focuses on projects that have demonstrated effectiveness in addressing vulnerabilities faced by the ten states of the Association of Southeast Asian Nations and China, Japan, and South Korea in Northeast Asia.

The Economic Value of Landscapes
C. Martijn van der Heide
Taylor & Francis
ISBN: 9780415563284
Oprawa: twarda
Cena: 90 GBP

This book aims to explore the avenue of landscape economics and provides the building blocks (from different scientific disciplines) for an economic analysis of landscapes. What exactly constitutes and determines the value of a landscape?

The Bioregional Economy: Land, Liberty and the Pursuit of Happiness
Molly Scott Cato
Taylor & Francis
ISBN: 9780415500821
Data wydania: 15.11.2012
Oprawa: twarda
Cena: 29,99 GBP

In a world of climate change and declining oil supplies, what is the plan for the provisioning of resources? Green economists suggest a need to replace the globalised economy, and its extended supply chains, with a more ‘local’ economy. But what does this mean in more concrete terms? How large is a local economy, how self-reliant can it be, and what resources will still need to be imported?

Water in the Middle East
Waltina Scheumann
Springer
ISBN: 9783642083761
Data wydania: 30.11.2012
Oprawa: miękka

The book deals with the potential conflicts over shared rivers in the Middle East, and with approaches towards cooperation regarding the Euphrates and Tigris, the Jordan and the Nile Rivers. Far from echoing the warnings about imminent water wars, the book highlights the potential for water savings and for cooperation in many fields inside and outside the water sector.

This book focuses on the economics of environment, energy, and what to do about these global issues, including climate change and the Green Industrial Revolution. While some authors have written about The Third Industrial Revolution, the world has moved into a Green Industrial Revolution, which is described in detail in the book. The book is separated into three sections.
The current economic crisis is causing large impact on the behaviour of financial markets and institutions. Crisis, Risk and Stability in Modern Banking presents an in-depth insight into key topics related to the behaviour of financial institutions in the crisis, stressing areas of major research interest.

Since 2007, many fundamental aspects of the economy and the labor market have changed dramatically. With the exception of Medicaid, subsidies flowing to households in the forms of loan and other benefits have declined, while tax policy has become more oriented toward individuals, thus increasing the budget deficit.

In 2007-2008 the world was plunged into a financial and economic crash. This book explores the multiple intertwined roots of the crash, including the build-up of global economic imbalances, the explosion in the use of novel financial instruments, the mismanagement of risk, and the specific roles played by housing and debt.

This book seeks to explain the global financial crisis and its wider economic, political, and social repercussions, arguing that the 2007-9 meltdown was in fact a systemic crisis of the capitalist system.

One striking weaknesses of our financial architecture, which helped bring on and perhaps deepen the Panic of 2008, is an inadequate appreciation of the past. Information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples.

This timely book surveys seminal contributions to the economics of bankruptcy. It offers suggestions for the way out of the current profound crisis.

Since 2007, many fundamental aspects of the economy and the labor market have changed dramatically. With the exception of Medicaid, subsidies flowing to the unemployed and financially distressed households in the forms of loan forgiveness and government transfers almost tripled.

This book provides an up-to-date analysis of the international debt issue, and offers suggestions for the way out of the current profound crisis.

Some analysts looked at the 1997/98 East Asian crisis not as one crisis but as a combination of crises, beginning with a crisis of confidence and evolving into a currency crisis, a financial crisis, an economic crisis, a social crisis and a political crisis.

The early twenty-first century has seen a conspicuous absence of formal international law concerning money and finance. This book argues that this lack of formal international law was a significant contributing factor to the global financial crisis that began in 2007.
A century ago, migrants often crossed an ocean and never saw their homelands again. Today, they call - or Skype - home the moment their flight has landed, and that’s just the beginning. Thanks to cheap travel and easy communication, immigrants everywhere stay in intimate contact with their native countries, creating powerful cross-border networks.

South Asia today is among the most unstable regions in the world, riddled by both intra- and inter-state conflict. This book presents a comprehensive technical analysis of the trade-conflict relationship within the region, and explores how South Asia demonstrates underperformance of its potential for economic integration.

The ever-increasing exchange of goods and ideas among nations, as well as cross-border pollution, global warming, and international crime, pose urgent questions for international law. Here, two respected scholars provide an intellectual framework for assessing these pressing legal problems from a rational choice perspective.

The central aim of the book is to define the approach of EU development policy regarding Africa since the end of the Cold War. It focuses on the impact of EU development policy on the domain of international development and the objective of the EU to become a prominent international actor.

The rising power of the global South has led to significant economic and trade changes. This book provides a broad and in-depth introduction to the geopolitical, economic and trade changes wrought with the increasing influence of the countries of the Global South in international affairs. The global role of the developing countries came to the forefront in 1974, when the United Nations General Assembly promulgated The New International Economic Order. The book includes classical theories of competition, the U.S. founding era, classicism and history of competition policy from Adam Smith to the present day. Chapters include classical theories of competition, the U.S. founding era, classicism and post-Chicago theories.

This book provides edited selections of primary source material in the intellectual tradition of competition policy from Adam Smith to the present day. Chapters include classical theories of competition, the U.S. founding era, classicism and post-Chicago theories.

Manufacturing Possibilities examines adjustment dynamics in the steel, automobile and machinery industries in Germany, the U.S., and Japan since World War II.
How do we explain the breakthrough market success of businesses like Nike, Starbucks, Ben & Jerry's, and Jack Daniel's? Conventional models of strategy and innovation simply don't work. The most influential ideas on innovation are shaped by the worldview of engineers and economists—build a better mousetrap and the world will take notice.

While the global economy languishes, one place just keeps growing despite failing banks, uncertain markets, and high unemployment: Silicon Valley. In the last two years, more than 100 incubators have popped up there, and the number of angel investors has skyrocketed.

In situations requiring careful judgment, every individual is influenced by their own biases to some extent. With Bazerman's new seventh edition, readers can quickly learn how to overcome those biases to make better managerial decisions.

Real-world strategies for corporate restructuring Radical Restructuring provides readers with an authoritative resource on the most important strategies and techniques of corporate restructuring from one of the top experts in the field—Stuart Gilson.

This book is about the creative and messy process of making environmental management decisions. The approach we describe is called Structured Decision Making, a distinctly pragmatic label given to ways for helping individuals and groups think through tough multidimensional choices characterized by uncertain science, diverse stakeholders, and difficult tradeoffs.

Valuable guidance for staying one step ahead of financial statement fraud Financial statement fraud is one of the most costly types of fraud and can have a direct financial impact on businesses and individuals, as well as harm investor confidence in the markets.
