## Clinical Obstetrics and Gynaecology, 5th Edition

**Layden, Thomson, Owen, Madhra & Magowan**

Publisher: Elsevier ISBN: 9780702085130  
Release date: 31/05/2022 Price: 49.99 EUR\*

**Clinical Obstetrics and Gynaecology** provides a thorough overview of the essential topics that healthcare practitioners in the field need to know, with a focus on clinical practice. This highly regarded textbook **provides comprehensive coverage of gynaecology, reproductive health, obstetrics and on-call for O&G**. It has been thoroughly updated to incorporate significant developments in clinical care, including in prenatal diagnosis and screening, COVID-19 management, antenatal and postnatal care, and telemedicine abortion practices. With full colour illustrations, self-assessment questions and additional online material to reinforce learning, this is a valuable resource for medical students, junior doctors, midwives, nurses and for healthcare practitioners from other specialties seeking a broad-based grounding in O&G.

## Llewellyn-Jones Fundamentals of Obstetrics and Gynaecology, 11th Edition

**Oats & Boyle**

Publisher: Elsevier ISBN: 9780702083013  
Release date: 02/05/2022 Price: 42.99 EUR\*

Watch introductory video

Regarded as the leading textbook in obstetrics and gynaecology for over 50 years, **Fundamentals of Obstetrics and Gynaecology** is an ideal introduction to the basic principles of this specialty for medical students, trainees, midwives and nurses. Intervention rates continue to climb; women in the developed world embark on pregnancy later in life and with more complex medical disorders. The need to know and apply the best available standards of care is ever more critical. The book comprehensively and clearly **presents all the major components of women's reproductive health**, from the basics of history and examination through to pelvic anatomy, development of the fetus, and maternal psychosocial issues. Fully updated in its eleventh edition by experts in their field, this much-loved book remains true to the vision of its first author, renowned Australian obstetrician Derek Llewellyn-Jones OBE – to apply the best available standards of care for women throughout their reproductive journey. In his words: *'It is our hope to continue to meet the needs of today's medical students and students of nursing and midwifery; and to encourage self-learning skills while providing essential information in a readable manner'*.
