"I know no way of judging of the future but by the past."

— Patrick Henry (1736-1799), Speech in the Virginia Convention, March, 1775

Advanced search functionality

Users can find documents within *Eighteenth Century Collections Online* using fuzzy search technology, across specific keywords and phrases, full text of the entire work or specific sections of the book, author, title, date, module (general subject area) and more. This also includes advanced page navigation options — allowing users to search by entering an assigned sequential page image number, a printed page number or by using a drop-down to navigate between pages with matches for the search term entered. From the results list, the user then has the ability to link directly to more detailed records.

**Advanced Search**
