Dear Colleagues,

Headquartered in Hershey, PA, and celebrating over 30 years of publishing excellence, IGI Global continues to publish emerging and innovative content within its expanding portfolio of 5,300+ books and 185+ highly-indexed journals. With a steadfast pledge to put the research community and underrepresented research concepts before profit, IGI Global continues to affirm itself as a trusted and reliable publisher that strives to enhance the current body of scientific knowledge through close collaborations with researchers and scholars worldwide.

As a disseminator of resources that fuel innovations and inspire positive societal change, IGI Global endeavors to ensure that its cutting-edge research is easily accessible to the research community through its award-winning InfoSci®-Databases, including InfoSci®-Books and InfoSci®-Journals. Offering a very simple and transparent pricing structure, institutions of every size have the opportunity to access IGI Global's full collection of books and journals with no additional hidden fees and a guarantee that prices will not increase by more than 5% annually. With institution-wide unlimited simultaneous access, full-text PDF and HTML format, no embargo of content (research available months in advance of print), no DRM, no maintenance fees, as well as the opportunity to take advantage of **IGI Global's Open Access Fee Waiver (Read and Publish) Initiative**, these research databases offer some of the most flexible and customizable database options in the market.

We look forward to partnering with you to bring IGI Global databases to your institution.

IGI Global's International Team

As an international academic publisher, IGI Global has worked with over 100,000+ scholars, thousands of international institutions, and international book, journals, and electronic resources partners to disseminate the latest, advanced knowledge. In an effort to continue our legacy of personalized service and commitment to excellence throughout our global channels, find below IGI Global's International Staff that can provide specialized support to institutions and libraries within their regions.

International

Mr. Nick Newcomer
Senior Director of Marketing and Sales
nnewcomer@igi-global.com
Phone: 717-533-8845 ext. 111

Mr. Newcomer manages all of the company's marketing and sales activities across the world. These activities include all strategic conceptualization, implementation, execution, and analysis related to marketing and sales of IGI Global's reference books, scholarly journals, and InfoSci®-Databases. He brings nearly a decade of experience working with IGI Global, which includes more than six years as the company's Marketing Director.

North America

Mr. Abdoul Amadou
Sales Coordinator for North America
aamadou@igi-global.com
Phone: 717-533-8845 ext.180

Mr. Amadou assists in coordinating IGI Global's domestic and international InfoSci®-Database sales, as well as maintaining IGI Global's long-standing relationships with esteemed international partners, book and journal distributors, and agents. With extensive knowledge of IGI Global's products, he also provides current librarian customers with customer service and support.

China

Ms. Yvonne Li
Managing Director of IGI Science and Technology, Ltd. (China Subsidiary Office)
chinaservice@igi-global.com
China website (fully translated into Mandarin):
www.igi-global.com/zh-cn

IGI Global recently opened a subsidiary operation in China, called "IGI Science and Technology, Ltd." This China-based subsidiary of IGI Global is led by Ms. Yvonne Li, the Managing Director of IGI Science and Technology, Ltd., who brings extensive experience and leadership from her years of involvement in the publishing industry in China, having worked for other major international publishers in China for more than 15 years.

Asia-Pacific

Mr. Darren Viollet
Director of Sales for Asia-Pacific
dviollet@igi-global.com
Phone: +61 (0) 419 875 240

Mr. Viollett will be assisting IGI Global in continuing/enhancing our current relationships with our vast network of libraries, as well as contributors across the Asia-Pacific region. With over 20 years' experience in working in the publishing and information service industry, he has worked with some of the world's largest academic suppliers and aggregators across Australia, New Zealand, and the Pacific, enabling him to provide comprehensive solutions and customized service.

Europe & The Middle East

Mr. Richard Illingworth
Director of Sales for Europe and the Middle East
rillingworth@igi-global.com
Phone: +44 07969 062927

Mr. Illingworth will be disseminating access to IGI Global's expanding portfolio of reference books, scholarly journals, and their expansive line of InfoSci-Databases among libraries, consortia, and the research community in Europe and the Middle East. With 16+ years of experience in the publishing and information service industry, Richard consistently ranks as one of academia's leading sales professionals, providing comprehensive research solutions.

To learn more about IGI Global's products and services, request library holdings analysis or information on your IGI Global account, as well as consortium opportunities, contact your regional representative today.

IGI Global published cutting-edge academic reference books and scholarly journals, contributed by over 100,000+ prominent worldwide researchers and scholars, that cover underrepresented research and the latest discoveries in 11 core subject areas, including:

Business & Management

The **Business & Management** subject area addresses the need for forward-thinking research geared toward the advancement of concepts, theories, and applications that allow organizations and professionals to not only survive, but also thrive. Knowledge seekers will benefit from the latest research and discussions encompassing the successes, pitfalls, and future directions of different organizational, management, and planning objectives in a multitude of industries and fields. Topics include, but are not limited to, hospitality and tourism, fashion and textiles, automotive, banking, healthcare, airline, food and beverage, and many others.

Computer Science and Information Technology

The **Computer Science & Information Technology** subject area covers the timeliest, need-to-know themes currently trending within the field, including fog computing, intelligent systems, the IoT and IoE, big data, and robotics, with a strong emphasis on troubleshooting, quality control, and agility. Those currently practicing and researching in all branches of computer science and IT will greatly benefit from the latest findings and discussions encompassing the successes, pitfalls, and future directions in the field at large.

Education

The **Education** subject area pioneers the latest theories and practices that pave the way for better teaching and learning experiences, both in a classroom and online setting. Through studies that examine the use of educational technologies, new directions in curriculum development and instructional design, and some of the latest issues in leadership and administration, readers will find coverage of some of the most innovative practices that encourage structure, inclusivity, and engagement at all ages and levels.

Government & Law

The **Government & Law** subject area offers pioneering revelations and solutions in key areas including, but not limited to, conflict resolution, e-government applications, and civic engagement. Through the presented research covering the latest principles, regulations, and policies of governments all over the world, readers will benefit from in-depth investigations into both modern and more traditional government structures, aiding in the development of new concepts for creating more supportive, engaging, and transparent political systems.

Environmental, Agricultural, & Physical Sciences

The **Environmental, Agricultural, & Physical Sciences** subject area offers innovative solutions and emerging technologies essential for the successful stabilization of the environment and its inhabitants. Individuals pursuing dynamic investigations of different methods, theories, and policies currently being utilized and/or introduced for achieving long-term sustainability on local and international levels will find these titles to be extremely useful.

The **Library & Information Science** subject area aids in the implementation of new techniques and technologies that advance library services and processes. The ability to access content expeditiously, whether for leisure or research, is of the utmost importance to library patrons. Librarians looking for professional development materials for themselves or their staff will find that these titles examine both technological and organizational progressions in K-12, college and university, joint-use, special, corporate, and public libraries, and take budget, staff, and space concerns into consideration.

Library & Information Science

The **Media & Communications** subject area explores critical topics such as political rhetoric, digital media progressions, creative interfaces, communication theory, and many others. The pace at which individuals are sharing information is at an all-time high, and research focused on advancements in communication is essential. Those desiring explorations of different verbal, non-verbal, and technological trends and their societal impacts will find these titles to be extremely beneficial.

Media & Communications

The **Medical, Healthcare, & Life Sciences** subject area takes into consideration the need to further advance innovation through titles focused on medical education, ethics, service delivery, research methods, administration, and leadership. Through critical findings and discussions surrounding successes, pitfalls, and future directions in a variety of fields, knowledge seekers will discover the latest concepts and theories utilized within all facets of the healthcare industry that will ultimately lead to more successful procedures and better healthcare delivery options.

Medical, Healthcare, & Life Sciences

The **Science and Engineering** subject area highlights different methods, applications, discoveries, and dialogues on some of the most prevalent research topics, including energy optimization, structural engineering, metal-corrosion protection, hydropower, biomedical robotics, petroleum engineering, flood prevention, and others. Those currently practicing and researching will find these resources to provide well-rounded accounts of the latest successes, pitfalls, and future directions in their respective area of specialty.

Science & Engineering

The **Security & Forensics** subject area contains the most forward-thinking discoveries, practices, and systems utilized for protection from technological and physical harm. New research on the best practices for securing identities, solving crimes, thwarting cyberattacks, and safeguarding organizations and governments continue to emerge at a rapid pace. Ranging from security concerns to the ethics behind surveillance systems, researchers will find all the latest research on protecting livelihoods and information.

Security & Forensics

The **Social Sciences & Humanities** subject area offers in-depth examinations, theories, and predictions on cultural practices and how they affect individual lives, relationships, and routines. Society is constantly evolving, creating an interesting foundation for research into the ways in which humans are developing and interacting as part of this shift. It is necessary for research in this field to range between a focus on individuals, to a broader, societal context. Researchers interested in this field will find many diverse aspects covered, from psychology and sociology to controversial discussions on diversity.

- **InfoSci®Technology Adoption, Ethics, and Human Computer Interaction** (20 Total Journals)

All IGI Global's InfoSci®Databases have simple, transparent pricing ensuring that your institution has access to the latest peer-reviewed research at a fraction of the cost.

Download Pricing Packet

IGI Global's Transformative Open Access (OA) Model:
How to Turn Your University Library's Database Acquisitions Into a Source of OA Funding

In response to the OA movement and well in advance of mandates like Plan S, IGI Global unveiled their OA Fee Waiver (Read and Publish Model) Initiative.

Under this initiative, librarians who invest in IGI Global's InfoSci-Books (5,300+ reference books) and/or InfoSci-Journals (185+ scholarly journals) databases will be able to subsidize their patron's OA article processing charges (APC) when their work is submitted and accepted (after the peer review process) into an IGI Global journal.*

What are the Benefits?

- Maximizes libraries' investment in IGI Global content while supporting a sustainable OA model.
- Supports the overall OA movement by enabling additional OA content to be published.
- Provides researchers with an additional source of OA APC funding enabling them to increase the citation impact and discoverability of their research.
- Increases the availability of quality, peer-reviewed research worldwide including underfunded institutions.
- Provides access to over 5,300+ reference books and 185+ highly-indexed journals that contain the timeliest, peer-reviewed research.
- Provides librarians an opportunity to provide additional library services to their patrons which increases library and researcher collaboration.
- Allows IGI Global to maintain their strict, ethical publishing practices while investing in the OA movement.

How Does it Work?

1. When a library subscribes or perpetually purchases IGI Global's InfoSci-Databases, including InfoSci-Books (5,300+ e-books), InfoSci-Journals (185+ e-journals), and/or their discipline/subject-focused subsets, IGI Global will match the library's investment with a fund of equal value to go toward **subsidizing the OA article processing charges** (APCs) for their patrons.
2. When a student, faculty, or staff member submits a paper and it is accepted (following peer review) into one of IGI Global's 185+ scholarly journals, the author will have the option to have their paper published under a traditional publishing model or as OA.
3. When the author chooses to have their paper published under OA, IGI Global will notify them of the OA Fee Waiver (Offset Model) Initiative. If the author decides they would like to take advantage of this initiative, IGI Global will deduct the US$ 1,500 APC from the created fund.
4. This fund will be offered on an annual basis and will renew as the subscription is renewed for each year thereafter. IGI Global will manage the fund and award the APC waivers unless the librarian has a preference as to how the funds should be managed.

Hear From the Experts on This Initiative:

"I'm very happy to have been able to make one of my recent research contributions, 'Visualizing the Social Media Conversations of a National Information Technology Professional Association' featured in the *International Journal of Human Capital and Information Technology Professionals*, freely available along with having access to the valuable resources found within IGI Global's InfoSci-Journals database."

– **Prof. Stuart Palmer**, Deakin University, Australia

"Receiving the support from IGI Global's OA Fee Waiver Initiative encourages me to continue my research work without any hesitation. It also brings me more possibility in discovering new knowledge of information management and makes me expect more outcomes of our team in the future."

– **Prof. Wenlong Liu**, College of Economics and Management at Nanjing University of Aeronautics & Astronautics, China

Request a Free 30-Day Trial

A free trial to InfoSci®-Databases is the best way to evaluate the fit between an institution's research needs and IGI Global's rich academic content!

During a free trial, IGI Global's Database Team provides all of the necessary usage statistics to support librarians in measuring and monitoring use of the content during the trial.

In addition to COUNTER 5 compliant usage statistics, IGI Global's Database Team is happy to provide librarians with promotional PDF flyers and notification announcements, as well as personalize an institution's InfoSci® platform access with items such as an institution's logo.

The IGI Global e-resources team is also available to assist in promoting the trial to an institution's faculty, researchers, and students so that the research community is able to take full advantage of the trial and provide much-needed feedback, so that librarians can make the most well-informed purchasing decisions possible.

For more information regarding trials, contact eresources@igi-global.com or your preferred IGI Global distributor today.

Purchasing Options

IGI Global's InfoSci® platform presents the best value for institutions, as these databases contain IGI Global's entire collections.

Purchasing options for IG Global's InfoSci® platform include both perpetual purchase and/or subscription models, and databases are available for institution-level only. Contact eresources@igi-global.com.

The InfoSci-Databases are not currently for individual purchase. We suggest recommending the database content to your institution for consideration in this case. However, all of IGI Global's single book and journal content is available for individual sale, in both print and electronic formats.

InfoSci® Databases:

- InfoSci®-Books
- InfoSci®-Book Disciplines
- InfoSci®-Book Subjects
- InfoSci®-Journals
- InfoSci®-Journal Disciplines
- InfoSci®-Cases

The costs will vary for each subset of the InfoSci® platform databases, depending on the particular database and number of titles within. Pricing will be higher on databases with more content, but the cost per title will be lower than purchasing each title or journal at list price, making this an exceptional value for institutions and corporations. All database collections are heavily discounted from the sum of their respective individual title/journal list prices.

Update 2020 (800 - 850+ Titles*) for Existing Customers	US$ 20,500

IGI Global's Open Access (OA) Fee Waiver (Read and Publish) Initiative

For any library that invests in IGI Global's InfoSci-Books and/or InfoSci-Journals databases, IGI Global will match the library's investment with a fund of equal value to go toward subsidizing the OA article processing charges (APCs) for their students, faculty, and staff at that institution when their work is submitted and accepted under OA into an IGI Global journal.*

*The fund will be offered on an annual basis and expire at the end of the subscription period. The fund would renew as the subscription is renewed for each year thereafter. The open access fees will be waived after the student, faculty, or staff's paper has been vetted/accepted into an IGI Global journal as requested by the author(s) of the paper. Libraries in developing countries will have the match on their investment doubled.
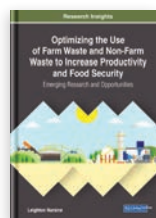

Occupational Stress: Breakthroughs in Research and Practice

Andrew H. Campbell (International Peace and Leadership Institute, USA)

Provides emerging research on a leader's role in the international, national, and nongovernmental organization within post-conflict resolution and peaceful leadership. While highlighting topics, such as civil society organizations, leadership education, and social reconstruction, this book explores leadership theories and practice models to conceptualize the intersection of leadership within conflict management and resolution.

Challenges and Opportunities for Women in Higher Education Leadership

ISBN: 9781522570561
EISBN: 978-1-5225-7057-8
© 2019; 353 pp.

Heidi L. Schnackenberg (State University of New York at Plattsburgh, USA) and Denise A. Simard (State University of New York at Plattsburgh, USA)

A pivotal reference source that provides vital research on the specific challenges, issues, strategies, and solutions that are associated with diverse leadership in higher education.

Social Media for Communication and Instruction in Academic Libraries

ISBN: 9781522580973
EISBN: 978-1-5225-8098-0
© 2019; 319 pp.

Jennifer Joe (University of Toledo, USA) and Elisabeth Knight (Western Kentucky University, USA)

An essential reference source that offers guidance in using social media in academic libraries and in instruction with a special emphasis on assessment and evidence-based practice. Featuring research on topics such as digital libraries, marketing, and web analytics, this book is ideally designed for librarians, administrators, educators, managers, information technology specialists, professionals, researchers, and students.

Testimonials

"The interface itself is clean and simple, making it easy to view results. The resources are highly curated and relevant to practitioners and researchers across the fields of information and technology. The materials are easy to access, view, cite, and save." [...] "This is a valuable resource for institutions"

- Ms. Gricel Dominguez, Florida International University, USA, Library Journal

"InfoSci®Books really provides an excellent entry into the research literature of the field. It presents a manageable number of highly relevant sources on topics of interest to a wide range of researchers. The sources are scholarly, but also accessible to 'practitioners'."

- Lisa Stimatz, MS, University of North Carolina at Chapel Hill, USA

"This database is excellent for locating a wide range of documents which will be of use to me and my students."

- Dr. Susan Myburgh, PhD, University of South Australia, Australia

"The search mechanism is very easy to use, and as such, many different searches can be done in a relatively short time period. As a result, a student (and researcher) will be able to conduct a broad review of current and past research in a particular area. The timeliness of information is improved because publications can be made accessible before the paper copy is received in the mail. In the past, one had to wait for the distribution of journals to gain access to them. The online system means access to information anywhere and at any time. This is critical for many researchers who are working at home, in the office, or perhaps even abroad."

- Dr. Shirley A. Becker, PhD, Northern Arizona University

InfoSci®-Education

This database of 1,000+ e-books includes emerging areas of education such as blended learning, gaming, learning analytics, and more.

IGI Global's InfoSci®-Education subject database provides titles encompassing all facets of education from curriculum design and development to various business models and promotional tools within the education sector. Additional topics of interests include learning theory, K-12 education, educational technologies, adult and lifelong learning, special education, educational administration and policy, and higher education. Titles in IGI Global's Education subject area are designed for academics and educational leaders in search of information on the current and future state of education and the tools enabling successful learning outcomes.

Testimonial

"The InfoSci²-Educational Science and Technology database represents the work of education and technology researchers on a wide range of topics from blended and mobile learning to gaming trends in education, and from educational administration and leadership to special education. It is a trove of reputable and timely research on everything concerning the intersection of technology and education—a subject that will be of great importance for the foreseeable future."

Handbook of Research on Implementing Knowledge Management Strategy in the Public Sector

Yousif Abdullatif Albastaki (Ahlia University, Bahrain), Adel Ismail Al-Alawi (University of Bahrain, Bahrain) and Sara Abdulrahman Al-Bassam (Arabian Gulf University, Bahrain)

Provides innovative insights and clear direction for the effective implementation of knowledge management initiatives and programs in organizations, specifically within the public sector.
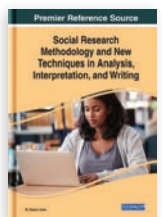

ISBN: 9781522574088
EISBN: 978-1-5225-7409-5

University-Industry Technology Transfer in the UK: Emerging Research and Opportunities

Martin Wynn (University of Gloucestershire, UK)

Provides innovative insights into how technology transfer has operated in university-company projects undertaken in small- to medium-sized enterprises. Highlighting 19 different cases drawn from companies in the regions adjoining the University of Gloucestershire, UK, from a qualitative case study approach, the content within this publication analyzes contract packers, the manufacturing industry, and research organizations.

Scholarly Publishing and Research Methods Across Disciplines

Victor C.X. Wang (Grand Canyon University, USA)

A collection of innovative findings on the methods and applications of research in scholarly publishing, ranging from the analyzation of mixed methods and qualitative/quantitative research, to Dewey's scientific method and more. This publication applies a cross-disciplinary viewpoint that will appeal to researchers, graduate students, academicians, librarians, scholars, and industry-leading experts around the globe seeking an understanding of the limitations and strengths in research techniques.

ISBN: 9781522563105

Ethics in Research Practice and Innovation

Antonio Sandu (Stefan cel Mare University of Suceava, Romania), Ana Frunza (LUMEN Research Center in Social and Humanistic Sciences, Romania) and Elena Unguru (University of Oradea, Romania)

An essential reference source that discusses current and historical aspects of ethical values in scientific research and technologies, as well as emerging perspectives of conducting ethical research in a variety of fields.

ISBN: 9781522578970
EISBN: 978-1-5225-7898-7
© 2019; 320 pp.

Social Research Methodology and New Techniques in Analysis, Interpretation, and Writing

M. Rezaul Islam (University of Dhaka, Bangladesh & University of Malaya, Malaysia)

A pivotal reference source that provides vital research on the main concepts of research writing, including the guidelines of research methodology and proposal designing.

ISBN: 9781522537618
EISBN: 978-1-5225-3762-5
© 2018; 168 pp.

Examining the Emotional Dimensions of Academic Librarianship: Emerging Research and Opportunities

Megan Lowe (University of Louisiana – Monroe, USA) and Lindsey M. Reno (University of New Orleans, USA)

An essential scholarly resource that offers detailed discussion on the latest crises and challenges for librarians and supplies innovative solutions to these issues. This publication is an ideal resource for librarians, academicians, students, and researchers who have an interest in the mental and emotional landscape of modern library environments.

InfoSci®-Media and Communications

This database of 800+ e-books includes emerging areas of media and communication theory such as wireless sensor network, digital media, cloud-based design, virtual worlds, and more.

IGI Global's InfoSci®-Media and Communications subject database seeks to present the latest research in all areas of communication theory, mobile computing, social networking, linguistics, multimedia technology, and telecommunications. Featuring innovative research on diverse topics, this collection is ideally designed for academicians, linguists, theorists, journalists, IT professionals, and students interested in furthering their knowledge in this field.

Testimonial

"Exploring Transmedia Journalism in the Digital Age is the first book in English dedicated exclusively to discussing the concept of transmedia journalism. Transmedia journalism is a new and exciting topic that the book explores through diverse perspectives and case studies developed by media and communication scholars from Europe, North America, and South America."

Post-Narratology Through Computational and Cognitive Approaches

Takashi Ogata (Iwate Prefectural University, Japan) and Taisuke Akimoto (Kyushu Institute of Technology, Japan)

Explores the new possibilities and directions of narrative-related technologies and theories and their implications on the innovative design, development, and creation of future media and contents (such as automatic narrative or story generation systems) through interdisciplinary approaches to narratology that are dependent on computational and cognitive studies.

ISBN: 9781522574583

Advanced Methodologies and Technologies in Media and Communications

Mehdi Khosrow-Pour, D.B.A. (Information Resources Management Association, USA)

Provides emerging research on the modern effects of media on cultures, individuals, and groups. This book explores how these advancements shape and further the global society. This book is an important resource for media researchers and professionals, academics, students, and communications experts seeking new information on the effective use of modern technology in communication applications.

Electronic Hive Minds on Social Media: Emerging Research and Opportunities

Shalin Hai-Jew (Kansas State University, USA)

Explores various research techniques to profile the electronic hive mind around social topics as expressed on various modalities of social media, from human, bot, and cyborg social media accounts, and proposes new research methods for harnessing public data from social media platforms. This publication is designed for researchers, social psychologists, practitioners, and students in marketing, communications, mass media, and similar fields.

Paving the Way for 5G Through the Convergence of Wireless Systems

Ramona Trestian (Middlesex University, UK) and Gabriel-Miro Muntean (Dublin City University, Ireland)

Provides innovative insights into wireless networks and cellular coexisting solutions that aim at paving the way towards 5G. Through examining data offloading, cellular technologies, and multi-edge computing, it addresses coexistence problems at different levels (i.e., physical characteristics, open access, technology-neutrality, economic characteristics, healthcare, education, energy, etc.), influencing networks to provide solutions for next generation wireless networks.

InfoSci®-Medical, Healthcare, and Life Sciences

This database of 400+ e-books includes emerging areas of medicine and healthcare such as biomedical image analysis, health management support systems, and more.

IGI Global's InfoSci®-Medical, Healthcare, and Life Sciences subject database presents publications on the latest developments in the fields such as medicine, chemistry, biology, and pharmacology. Titles within this subject area seek to uncover the latest trends in the field and are especially appropriate for reference by academicians, medical practitioners, professionals working in healthcare administration, and students.

Testimonial

*"By empowering physicians and sharing leadership responsibilities, organizations can prosper, and **Preparing Physicians to Lead in the 21st Century** gives examples, curricula and programs to foster a rich physician leadership environment."*

Deconstructing Stigma in Mental Health

Brittany A. Canfield (Southern New Hampshire University, USA) and Holly A. Cunningham (CPES Inc., USA)

Provides emerging research on issues related to stigma as a whole including ignorance, prejudice, and discrimination. While highlighting issues such as stigma and its role in mental health and how stigma is perpetuated in society, this publication explores the historical context of stigma, current issues and resolutions through intersectional collaboration, and the deconstruction of mental health stigmas.

InfoSci®-Science and Engineering

This database of 600+ e-books includes emerging areas of science and engineering such as simulations, geotechnical, robotics, mechatronics, mathematics, physics and more.

IGI Global's InfoSci®-Science and Engineering subject database features the latest developments, tools, and applications in a broad range of engineering disciplines including mechanical, environmental, chemical, industrial, electrical, and civil engineering. Researchers, students, business managers, and engineers will find the comprehensive and diverse titles in this collection particularly relevant in furthering their knowledge in the field. Today, the field of engineering presents diverse research which is constantly evolving to fit the needs of modern civilization.

Testimonial

*"Each chapter in **Civil and Environmental Engineering: Concepts, Methodologies, Tools and Applications (3 Vols.)** has an extensive list of references, making this work an excellent starting point for those interested in contemporary civil engineering. Recommended for not only civil engineers, but also for managers of civil engineering projects."*

Megacities and Rapid Urbanization: Breakthroughs in Research and Practice

Information Resources Management Association (USA)

Examines trends, challenges, issues, and strategies related to population growth and rapid urbanization and its impact on urban environments. The book also explores the use of different governance approaches in addressing challenges and different tools and systems of appropriate allocation to address issues. This publication is an ideal reference source for academicians, students, practitioners, professionals, managers, urban planners, and government officials.

Reusable and Sustainable Building Materials in Modern Architecture

Gülşah Koç (Yildiz Technical University, Turkey) and Bryan Christiansen (Global Research Society, LLC, USA)

An essential reference source that discusses the shaping of building design through culture and materials as well as the influence of environment on building design. Featuring research on topics such as passive design, ecological design, and urban design, this book is ideal for academicians, specialists, and researchers seeking coverage on culture, environment, and building design.

Testimonial

*"The unique content in this volume, **Police Psychology and Its Growing Impact on Modern Law Enforcement**, emphasizes key elements of police psychology as it relates to current issues and challenges in law enforcement and police agencies and covers a vast array of topics, including emerging ethical issues, police suicide, police interactions with the mentally ill, mass casualty events and first responders, and so much more. [...] Multiple copies of this book should be on the top shelf of every police resource center in the nation.*

- Mr. Thomas E. Baker, Lt. Col. (Ret.) United States Army Reserve Military Police Corps, Special Agent, and Commander with United States Army Criminal Investigation Command, as reviewed for for American Reference Books Annual

IGI Global's Open Access (OA) Fee Waiver (Read and Publish) Initiative

For any library that invests in IGI Global's InfoSci-Books and/or InfoSci-Journals databases, IGI Global will match the library's investment with a fund of equal value to go toward subsidizing the OA article processing charges (APCs) for their students, faculty, and staff at that institution when their work is submitted and accepted under OA into an IGI Global journal.*

*The fund will be offered on an annual basis and expire at the end of the subscription period. The fund would renew as the subscription is renewed for each year thereafter. The open access fees will be waived after the student, faculty, or staff's paper has been vetted/accepted into an IGI Global journal as requested by the author(s) of the paper. Libraries in developing countries will have the match on their investment doubled.

ISSN: 1546-2234
EISSN: 1546-5012
Published Quarterly. Est. 1989.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), Web of Science (SSCI), and SCOPUS*

Journal of Organizational and End User Computing (JOEUC)

Steven Walczak (University of South Florida, USA) and Sang-Bing Tsai (University of Electronic Science and Technology of China Zhongshan Institute, China and Wuyi University, China)

Features a major emphasis on how to increase organizational and end user productivity and performance, and how to achieve organizational strategic and competitive advantage.

ISSN: 1063-8016
EISSN: 1533-8010
Published Quarterly. Est. 1990.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), and SCOPUS*

Journal of Database Management (JDM)

Keng Siau (Missouri University of Science and Technology, USA)

Designed to provide comprehensive coverage and understanding of the social, cultural, organizational, and cognitive impacts of e-commerce technologies and advances on organizations around the world.

ISSN: 1062-7375
EISSN: 1533-7995
Published Quarterly. Est. 1993.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), Web of Science (SSCI), and SCOPUS*

Journal of Global Information Management (JGIM)

Zuopeng (Justin) Zhang (University of North Florida, USA)

Presents comprehensive interdisciplinary and refereed research on the most emerging and breakthrough areas of information science and technology.
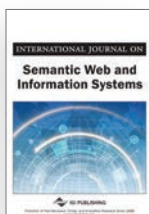

ISSN: 1552-6283
EISSN: 1552-6291
Published Quarterly. Est. 2005.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), and SCOPUS*

International Journal on Semantic Web and Information Systems (IJSWIS)

Miltiadis D. Lytras (The American College of Greece, Greece)

Promotes a knowledge transfer channel where academics, practitioners, and researchers can discuss, analyze, criticize, synthesize, communicate, elaborate, and simplify the more-than-promising technology of the semantic Web in the context of information systems.

ISSN: 1545-7362
EISSN: 1546-5004
Published Quarterly. Est. 2004.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), and SCOPUS*

International Journal of Web Services Research (IJWSR)

Liang-Jie Zhang (Kingdee International Software Group, China)

Publishes original material concerned with all aspects of information resources management, managerial and organizational applications, as well as implications of information technology.

ISSN: 1548-3924
EISSN: 1548-3932
Published Quarterly. Est. 2005.

Indexed In: *EI Compendex, INSPEC, Web of Science (SCIE), and SCOPUS*

International Journal of Data Warehousing and Mining (IJDWM)

David Taniar (Monash University, Australia)

Disseminates the latest international research findings in the areas of data management and analyzation.

Testimonials

"The InfoSci®Journals database is a treasury for researchers, educators, R&D engineers, and managers. Going beyond the boundaries of professional fields of IT/IS, it extends its range to be more interdisciplinary. InfoSci®Journals database provides high-level, valuable articles with insights and implications for experts in educational, managerial, and governmental fields. Teachers and professors can also find interesting teaching cases in this prestigious database. I believe that InfoSci®Journals database contributes to scholars' professional development and students' learning; as such libraries' collections could be enriched and enhanced with such a professional database."

- Dr. Chia-Wen Tsai, Ming Chuan University, Taiwan

"The interface itself is clean and simple, making it easy to view results. The resources are highly curated and relevant to practitioners and researchers across the fields of information and technology. The materials are easy to access, view, cite, and save." [...] "This is a valuable resource for institutions."

- Gricel Dominguez, Florida International University, USA, Library Journal

"I have faculty in my computer science department chomping at the bit for this kind of content!"

- Lia Hemphill, Nova Southeastern University, USA

"Well formatted; clear print and a responsive layout perfect for increasing text size or use on a mobile device. A table of contents appears on the left side of the navigation and moves with the user as they scroll through the contents. This provides easy access to other chapters as well as any supplementary materials associated with the title."

- Bonnie J.M. Swoger, Library Journal

International Journal of Applied Metaheuristic Computing (IJAMC)

Peng-Yeng Yin (National Chi Nan University, Taiwan)

Publishes high quality, innovative research on the latest developments, models, and applications within the transdisciplinary fields related to metaheuristic computing.

ISSN: 1947-3435
EISSN: 1947-3443
Published Quarterly. Est. 2011.

Indexed In: INSPEC, Web of Science (ESCI), SCOPUS,

International Journal of Cyber Warfare and Terrorism (IJCWT)

Graeme Pye (Deakin University, Australia) and Brett van Niekerk (University of KwaZulu-Natal, South Africa)

Covers technical aspects, management issues, social issues, and government issues that relate to cyber warfare and terrorism.

ISSN: 2156-1680
EISSN: 2156-1672
Published Quarterly. Est. 2011.

Indexed In: *INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Manufacturing, Materials, and Mechanical Engineering (IJMMME)

J. Paulo Davim (University of Aveiro, Portugal)

Publishes high quality articles with special emphasis on research and development in manufacturing, materials and mechanical engineering.

ISSN: 2160-9918
EISSN: 2160-9926
Published Quarterly. Est. 2012.

Indexed In: *EI Compendex, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of E-Planning Research (IJEPR)

Carlos Nunes Silva (University of Lisbon, Portugal)

Publishes original theoretical and innovative empirical research on the many aspects of the emerging interdisciplinary area of urban e-planning.

ISSN: 1947-8488
EISSN: 1947-8496
Published Semi-Annually. Est. 2010.

Indexed In: *INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Geotechnical Earthquake Engineering (IJGEE)

T.G. Sitharam (Indian Institute of Science, India) and J. S. Vinod (University of Wollongong, Australia)

Draws research and development from scientists and engineers worldwide in the fields of earthquake engineering, geotechnical engineering, geophysics, and engineering seismology.

ISSN: 1947-3192
EISSN: 1947-3206
Published Quarterly. Est. 2010.

Indexed In: *EI Compendex, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Agricultural and Environmental Information Systems (IJAEIS)

Petraq Papajorgji (Universiteti Europian i Tiranes, Albania) and François Pinet (Irstea/Cemagref - Clermont Ferrand, France)

Presents high quality research papers on the design and implementation of information systems in the fields of agronomics, mathematics, economics, computer science, and the environment.

ISSN: 1947-9654
EISSN: 1947-9662
Published Quarterly. Est. 2010.

Indexed In: *INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Applied Geospatial Research (IJAGR)

Donald Patrick Albert (Sam Houston State University, USA) and Samuel Adu-Prah (Sam Houston State University, USA)

Specializes in studies from applied geography that interface with geographic information science and technology.

ISSN: 2160-9500
EISSN: 2160-9543
Published Quarterly. Est. 2012.

Indexed In: *INSPEC and Web of Science (ESCI)*

International Journal of Energy Optimization and Engineering (IJEOE)

Pandian Vasant (Universiti Teknologi Petronas, Malaysia), Gerhard-Wilhelm Weber (Poznań University of Technology, Poland) and Dieu Ngoc Vo (Ho Chi Minh City University of Technology, Vietnam)

Provides relevant theoretical frameworks and the latest empirical research findings in the areas of energy systems and hybrid intelligent optimization.

ISSN: 1548-0666
EISSN: 1548-0658
Published Quarterly. Est. 2005.

Indexed In: *EI Compendex, INSPEC, and Web of Science (ESCI), SCOPUS*

International Journal of Knowledge Management (IJKM)

Murray E. Jennex (San Diego State University, USA)

Provides a comprehensive cross discipline forum for advancing the understanding of the organizational, technical, human, and cognitive issues associated with the creation, capture, transfer and use of knowledge in organizations.

ISSN: 1941-6296
EISSN: 1941-630X
Published Quarterly. Est. 2009.

Indexed In: *EI Compendex, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Decision Support System Technology (IJDSST)

Pascale Zaraté (Toulouse University, France)

Provides comprehensive coverage for DMSS technology issues.

ISSN: 1550-1876
EISSN: 1550-1337
Published Quarterly. Est. 2005.

Indexed In: *EI Compendex, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Information and Communication Technology Education (IJICTE)

David D. Carbonara (Duquesne University, USA)

Serves as a medium for introducing, collaborating, analyzing, synthesizing, and evaluating innovative contributions to the theory, practice, and research of technology education applicable to K-12 education, higher education, and corporate and proprietary education.
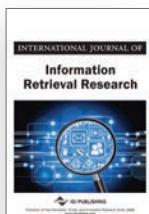

ISSN: 2155-6873
EISSN: 2155-6881
Published Quarterly. Est. 2011.

Indexed In: *INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Online Pedagogy and Course Design (IJOPCD)

Chia-Wen Tsai (Ming Chuan University, Taiwan) and Pei-Di Shen (Ming Chuan University, Taiwan)

Serves as a forum for the improvement of online education for schools and teachers planning to implement, or currently engaged in, e-learning.

ISSN: 2155-6377
EISSN: 2155-6385
Published Quarterly. Est. 2011.

Indexed In: *INSPEC and Web of Science (ESCI)*

International Journal of Information Retrieval Research (IJIRR)

Zhongyu (Joan) Lu (University of Huddersfield, UK)

Focuses on theories and methods with an enterprise-wide perspective and addresses interdisciplinary and multidisciplinary applications in data, text, and document retrieval.

ISSN: 2155-6849
EISSN: 2155-6857
Published Quarterly. Est. 2011.

Indexed In: *ERIC, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Game-Based Learning (IJGBL)

Patrick Felicia (Waterford Institute of Technology, Ireland)

Publishes multidisciplinary research from fields that explore the cognitive and psychological aspects that underpin successful educational video games.

ISSN: 2641-6255
EISSN: 2641-6263
Published Semi-Annually. Est. 2019.

International Journal of Patient-Centered Healthcare (IJPCH)

Hang Yue (Johns Hopkins Medicine, USA)

Provides comprehensive coverage and understanding of clinical problem solving in healthcare and the overall management of patient-centered healthcare. Patient-centered healthcare aims at improved healthcare management through clinical problem solving utilizing concerted experiential learning in conversations between multiple users and stakeholders, primarily patients, health professionals, and other actors in a care giving collaborative network across a Web interface.

ISSN: 1555-3396
EISSN: 1555-340X
Published Quarterly. Est. 2006.

Indexed In: *EI Compendex, INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of Healthcare Information Systems and Informatics (IJHISI)

Qiang (Shawn) Cheng (University of Kentucky, USA) and Joseph Tan (McMaster University, Canada)

Disseminates current technological innovations and applications in the emerging field of information systems and informatics applications in the healthcare industry while directing frameworks to advancing healthcare and clinical practices and research.

ISSN: 2639-7692
EISSN: 2639-7706
Published Semi-Annually. Est. 2019.

International Journal of Applied Research on Public Health Management (IJARPHM)

Qiang (Shawn) Cheng (University of Kentucky, USA) and Joseph Tan (McMaster University, Canada)

Embraces critical topics surrounding disease control, disaster and emergency response and management, sustainability, decision making, policy making and implementation, technologies and services in modern public health systems, as well as relevant health studies on behaviors and society.

ISSN: 1947-315X
EISSN: 1947-3168
Published Quarterly. Est. 2010.

Indexed In: *INSPEC, Web of Science (ESCI), and SCOPUS*

International Journal of E-Health and Medical Communications (IJEHMC)

Joel J.P.C. Rodrigues (National Institute of Telecommunications (Inatel), Brazil & Instituto de Telecomunicações, University of Beira Interior, Portugal)

Publishes high quality application papers, survey and tutorial papers, case studies, and short research notes reflecting global e-health technologies and medical communications contributing to the state-of-art advances in the fields.

ISSN: 2379-738X
EISSN: 2379-7371
Published Semi-Annually. Est. 2016.

International Journal of Big Data and Analytics in Healthcare (IJBDAH)

Mu-Yen Chen (National Taichung University of Science and Technology, Taiwan)

Provides timely and innovative research on the ways in which big data is revolutionizing the medical field.

ISSN: 2577-4794
EISSN: 2577-4808
Published Semi-Annually. Est. 2019.

International Journal of Extreme Automation and Connectivity in Healthcare (IJEACH)

Sabah Mohammed (Lakehead University, Canada) and Jinan Fiaidhi (Lakehead University, Canada)

An academic journal for a range of emerging research issues related to the digital transformations in the Healthcare paradigm.

InfoSci®-Cases

1,800+
Teaching Cases

InfoSci®-Cases is a premier database of over 1,800+ teaching cases based on real-life issues, challenges, and opportunities. Each case provides professors and students with background information, project descriptions, current status of the case/project, and a series of questions for discussion. With teaching notes that include answers to the case questions, epilogue and lessons learned, and a list of additional sources for further research, this collection is an excellent supplement for research and classroom instruction.

Free Trial

Annual Subscription (1,800 - 1,850+ Cases*)

Level	Relevant FTE	2020 Pricing
1	Small Colleges	US$ 2,450
